

FB Surface Spacer Triangle/Bow

Curved fibre-reinforced concrete spacer

The FB triangular arched surface spacers are arch-shaped individual spacers with a triangular cross-section. They are used to maintain the required concrete cover in reinforced concrete components with horizontal mesh and round steel reinforcement. They are made of high-quality fibre-reinforced concrete and tested in accordance with the DBV fact sheet Spacers. These accessories are approx. 330 mm long and require a concrete cover of 20 to 60 mm.
