

## GVU

### Mesh cable tray universal connector

Mesh cable trays can be mounted quickly and easily in a straight orientation using GVU mesh cable tray universal connectors. For horizontal changes of direction (mesh cable tray bends and branches) and vertical changes of direction, the mesh cable tray connector GVU is used along with two GVK mesh cable tray connector clamping pieces. We provide components in various materials and surface finishes to ensure that the corrosion requirements are met for all sorts of applications.
