

H

Cable clamp for fastening to C profile rails

The H cable clamp with full-surface pressure trough made of galvanised steel can guide cables with a maximum diameter of 70 mm. It is suitable for attachment to C profile rails with a slot width of 16 mm. On request, a GW counter trough can be fitted for improved cable support. We provide components in various materials and surface finishes to ensure that various requirements for different areas of application are met. Articles with a diameter of 12 to 56 mm are also available in stainless steel with material no. 1.4571/1.4404 (V4A).

steel, zinc plated

Products	D	H _{max}	cables	M	W
