

ISOPRO® IP 120 C

ISOPRO® IP 120 C is a thermally insulated slab connection with a 120 mm insulating body for easy connection of external corner balcony slabs. It is suitable for transmitting moments and shear forces. The stainless steel rebar is resistant to corrosion. The thrust bearing consists of steel compression rods. The partial elements on the left and right are also available individually. It complies with fire protection requirements: ISOPRO® IP 120 C is available for fire protection structures up to REI 90. Please specify the load-bearing capacity, element height and fire protection version when ordering.
