

ISOPRO® IP 120 D

ISOPRO® IP 120 D is a thermally insulated slab connection with a 120 mm insulating body for continuous reinforced concrete slabs. It is suitable for transmitting moments and shear forces. The stainless steel rebar is resistant to corrosion. The tension and compression plane consists of steel compression bars. It complies with fire protection requirements: ISOPRO® IP 120 D is available for fire protection structures up to REI 90. Please specify the load-bearing capacity, shear force bearing capacity, concrete cover, element height and fire protection version when ordering.
