

ISOPRO® IP 120 QZ

ISOPRO® IP 120 QZ is a thermally insulated slab connection with a 120 mm insulating body for transmitting shear forces in supported reinforced concrete components. The stainless steel rebar is resistant to corrosion. For the purpose of tension-free support, this item does not have a pressure component. Type IP 120 QZ can only be used in conjunction with IP 120 Q. It complies with fire protection requirements: ISOPRO® IP 120 QZ is available for fire protection structures up to REI 90. Please specify the load-bearing capacity, element height and fire protection version when ordering.
