

ISOPRO® IPTD

ISOPRO® IPTD is a thermally insulated slab connection with an 80 mm insulating body for continuous reinforced concrete slabs. It is suitable for transmitting negative and positive moments and positive and negative shear forces. The stainless steel rebar is resistant to corrosion. The tension and compression plane consists of steel compression bars. It complies with fire protection requirements: ISOPRO® IPTD is available for fire protection structures up to REI 90. Please specify the load-bearing capacity, shear force bearing capacity, concrete cover, element height and fire protection version when ordering.
