

JDA 25

Punching shear reinforcement for transmitting high shear forces in in-situ concrete

The punching shear reinforcements JDA 25 are approved throughout Europe by ETA-13/0136 and have environmental product declaration EPD-JDL-20200260-IBB1-DE. These solutions are suitable for concrete strengths from C20/25 to C50/60. The double-headed anchors are made from reinforcing steel. The strip is made from structural steel in a perforated or unperforated design. The reinforcements are available as standard elements with two or three double-headed anchors per strip. The anchors are 125 to 695 mm long and 10 to 25 mm in diameter. Special solutions are available on request.
