

## JVL

Square bearing plate for shimming support corbels on the compression bearing

The JVL square bearing plate made of stainless steel (A4) is part of the set for the JBA support corbel, but can also be ordered separately. It is used for shimming along with the JVS horseshoe shim and enables the JBA support corbel to be vertically adjusted on the compression bearing. Similar to the US washer, the JVL square bearing plate ensures steel-to-steel contact between the bolted-on component and the anchor channel. JVL square bearing plates are available in various sizes suitable for different rail profiles and bolts.

Products	H	B	L	D	weight
JVL4003-08	3 mm	40 mm	40 mm	8 mm	0,036 kg
JVL4006-08	6 mm	40 mm	40 mm	8 mm	0,072 kg
