

JVS

Horseshoe shim for shimming support corbels on the bearing plate

The JVS horseshoe shim made of stainless steel (A4) is part of the set for the JBA support corbel, but can also be ordered separately. It is used for shimming along with the JVL square bearing plate and enables the JBA support corbel to be vertically adjusted on the bearing plate. The slot lets it be easily fitted and removed. The JVS horseshoe shim is available in different sizes.

Products	H	B	L	D	weight
JVS4006-13	6 mm	40 mm	40 mm	13 mm	0,060 kg
JVS6503-17	3 mm	65 mm	65 mm	17 mm	0,083 kg
JVS6504-17	4 mm	65 mm	65 mm	17 mm	0,111 kg
