

KLRL

Clamp fastening set, long

The long clamp fastening set KLRL, consisting of FRSV 6x16 and SEMS 6, is used to fasten our cable trays to substructures or superstructures that cannot be fastened using the KLR. The included longer FRSV 6x16 screw allows the support systems to be attached to thicker beams or profiles. We provide components in various materials and surface finishes to ensure that various corrosion protection requirements for different areas of application are met.

steel, galvanic zinc plated

Products	W
KLRL	0,016 kg
incl.:	
2 x SEMS 6, 2 x FRSV 6X16	

Stainless steel, according to ASTM 304 / BS 304 S 3

Products	W
KLRL E	0,018 kg
incl.:	
2 x FRSV 6X16E, 2 x SEMS 6E	

W: Weight per storage unit
