

RAPIDOBAT® Cretcon HD

Formwork tube for pore-free concrete surfaces

RAPIDOBAT® Cretcon HD is a round formwork tube that produces particularly high-quality concrete columns with the help of an activatable hydrogel formlining skin. The concrete surface achieves the highest exposed concrete class SB 4, the highest porosity class P 4 and the highest colour uniformity class FT 3, among other things. The formwork tubes consist of multi-layered paper and cardboard sheets that retain their shape even in driving rain. They have an integrated ripcord for easy stripping of the formwork. We provide this component with inner diameters from 200 to 800 mm and a stock length of up to 7000 mm. Other diameters and lengths are available on request.

Products		ø	ø ext	H _F	weight
310300001830	RAC 200-m	200 mm	207 mm	7000 mm	2,094 kg
310300001832	RAC 240-m	240 mm	247 mm	7000 mm	2,905 kg
310300001833	RAC 250-m	250 mm	257 mm	7000 mm	3,025 kg
310300001835	RAC 300-m	300 mm	309 mm	7000 mm	3,985 kg
310300001837	RAC 350-m	350 mm	359 mm	7000 mm	5,016 kg
310300001838	RAC 360-m	360 mm	369 mm	7000 mm	5,362 kg
310300001839	RAC 400-m	400 mm	409 mm	7000 mm	6,168 kg
