

## RGV 35

Cable tray side connector, height = 20 mm

Cable trays can be connected easily and quickly using the side connector RGV 35 and the VB floor connector. Side connectors are also used for horizontal and vertical bends, crossings, branches and reducers in accordance with the installation instructions. The side connector RGV 35 is 20 mm high corresponding to the tray and is 150 to 230 mm wide. We provide components in various materials and surface finishes to ensure that the corrosion requirements are met for all sorts of applications.

steel, continuously hot galvanized/Sendzimir process
