

## Snake Spacer

Steel snake-shaped support cage

The snake-shaped spacers are support cages that act as spacers between the lower and upper reinforcement layers. These accessories from the reinforcement products range are made of steel. They are approx. 2000 mm long and 30 to 400 mm high. Certified in line with DBV fact sheet Supports. A large bundle with 200 pieces consists of 8 bundles of 25 spacers each.
