

UBDHB250 3V

False floor socket, 3x, angular

The UBDHB250 3V components are false floor sockets that are installed as pull boxes and built-in boxes on screed-covered underfloor ducts. They have a mounting hole to accommodate a formwork body, which is replaced by a square plastic or stainless steel installation unit during final assembly. The supplied earthing clamps are used for equipotential bonding. The floor sockets with side walls that can be bent open on all sides are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346 and have VDE/TÜV approval in accordance with DIN EN 50085.
