Separating strip

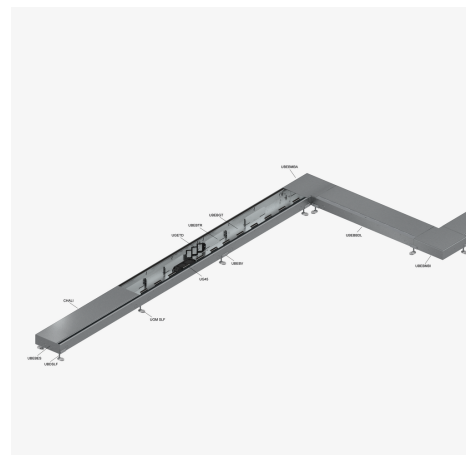

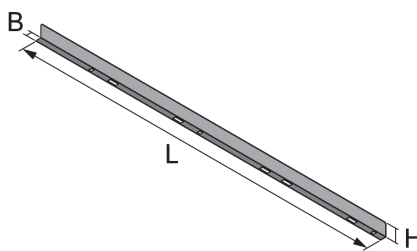

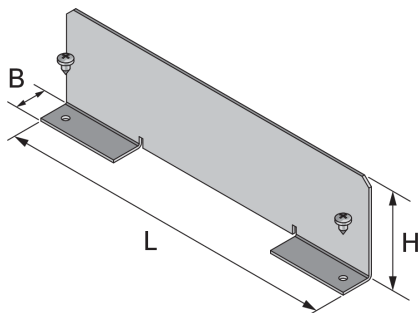

UBEBTR product solutions are separating strips that are used within the screed-flush CHALI duct systems. They are bolted into the brush duct where they safely separate the power cables from the other built-in elements such as data carriers or mounting boxes. These mounting components are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346. They are 244 mm long, 23 mm wide and 70 mm high.
