

UDBS 40-80

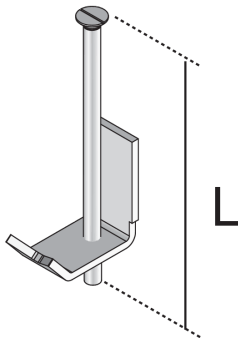

Special claw

UDBS 40-80 products are special claws from the underfloor system range. This accessory for installation units made from plastic is composed of a claw body and a matching countersunk screw. The claws are used in special applications when installing installation units in screed, raised or false floors. They are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346 and are available with a clamping range of 40 - 95 mm.

Products	k	weight
