

UDKS3

Universal claw for plastic units

UDKS3 components are universal claws for plastic installation units. These claws are used to create robust connections between the installation units and the assembly covers, floor sockets or raised or false floor openings in which they are inserted. These spare parts for the product range are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346 and are available with a clamping range of 35 - 50 mm. Various accessories can also be purchased.

Products	k	W
UDKS3-VR	35 - 50 mm	0,010 kg

k: clamping range
W: Weight per storage unit
