

UEBD1-1 V E

Stainless steel dummy cover single outlet cartridge, 1x, angular

UEBD1-1 V E components are square dummy cover individual outlet cartridges with abutting edges. The installation units consist of an adjustable cartridge mounting frame with a dummy cartridge, a housing and a rubber seal and are installed directly in screed or false floors and used to accommodate an installation device. The single outlets are suitable for wet-cleaned rooms with office traffic loads. They are made of stainless steel, material no. 1.4301 (V2A), have installation dimensions of 115 x 115 mm, an IP protection class of IP 54 in the unused state and a levelling range of 20 mm.

Products	H _{min}	N	E	P _{max}	IP _n	W
UEBD1-1 15-V E	100 mm	20 mm	115 x 115 mm	2,00 kN	IP 54	1,550 kg
incl.:						
1 x UGD1-1-V 2						

H_{min}: minimum installation height

N: levelling range

E: fitting dimension

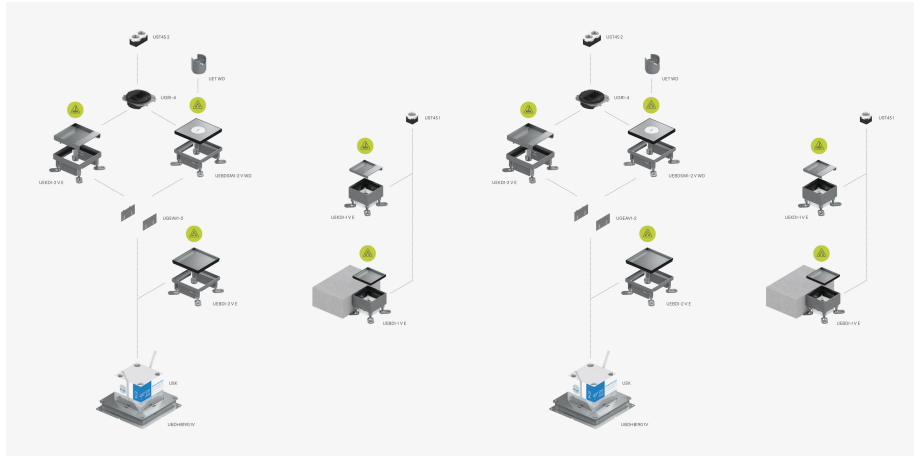

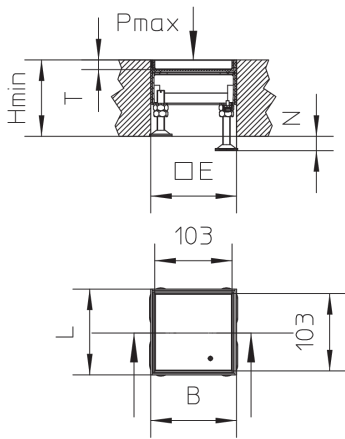

P_{max}: maximum load

IP_n: IP protection level in unused condition

W: Weight per storage unit
