

UEBDE V

Cover insert, stainless steel dummy cartridge, 3x, angular

The components UEBDE V are square cover inserts. These accessories are used as filling pieces to reduce the floor covering insertion depth in stainless steel cartridges, which can be equipped with up to three mounting boxes. The white cover inserts from the range of installation units for underfloor systems are made from high-quality polyvinyl chloride hard foam. They are 245 mm across and are made from material 6.0 mm thick.
