

UETD80 WD

Tube cover

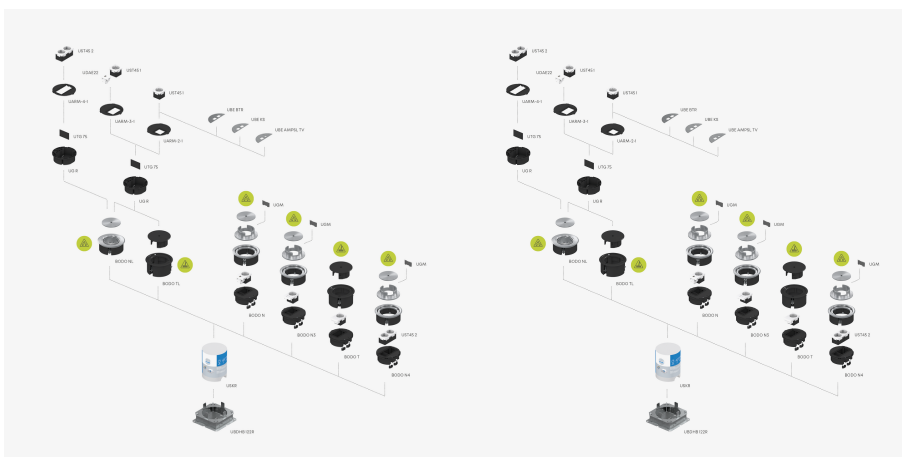

UETD80 WD components are round tube covers from the product range of installation units for underfloor systems. These accessories are placed on the corresponding tube UET80 WD and bolted in place. This protects the tube and the power and data cables routed through it. The tube covers are made of aluminium, brass or stainless steel, material no. 1.4301 (V2A), and come in various finishes. The aluminium material variant is available in the finishes aluminium, black and chrome.

Products	color	W
UETD80-R-WD	aluminium	0,114 kg
UETD80-R-WD-CR	chrome	0,114 kg
