

## UGEA D

Data device carrier adapter for GB

UGEA D components are data device carrier adapters for mounting boxes. They are used to hold various components of mounting support systems and are compatible with the UEKD2 R stainless steel hinged cover units and the UGEAV stainless steel snap-in ladder sets, among others. The data device carrier adapters are made of sendzimir hot-dip galvanised sheet steel. The adapters are sold singly. Two adapters are required per mounting box.
