

UGEARL

Locking ladder extension, 3x

UGEARL product solutions are snap-in ladder extension sets from the underfloor systems accessory range. These clamp fasteners are used when assembling installation units made of plastic or stainless steel. They allow up to three additional mounting boxes or device carriers to be lowered in stages. The sets consist of two individual snap-in ladders made of sendzimir hot-dip galvanised sheet steel. The accessory elements have a minimum installation height of 135 mm. They are 187.5 mm wide, 93.8 mm high and have a locking range of 24 mm.

Products	H	H _{min}	B	mounting box	lock-in range	W
UGEARL 50S	94 mm	135 mm	188 mm	3	24 mm	0,400 kg

H: height

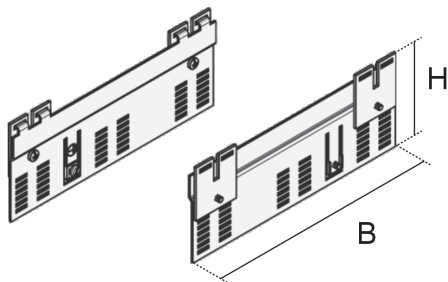

H_{min}: minimum installation height

B: width

mounting box: maximum number of installable device casings

W: Weight per storage unit
