

UGR1-4

Mounting box, round, pre-assembled

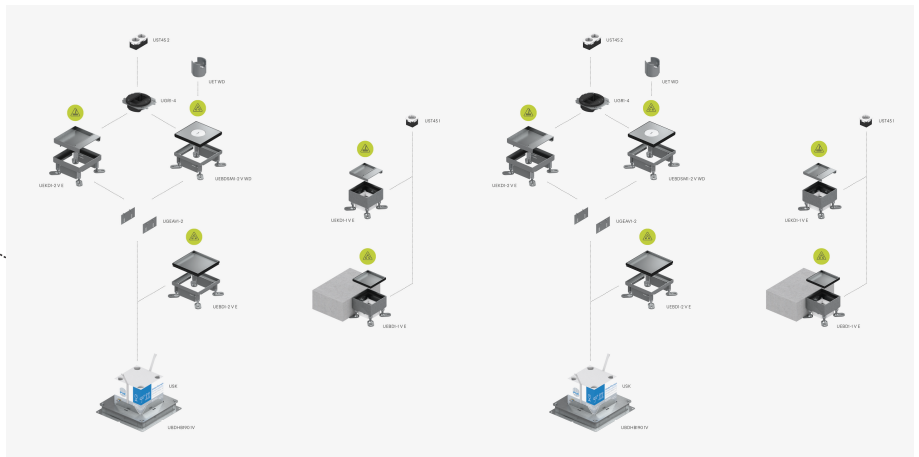

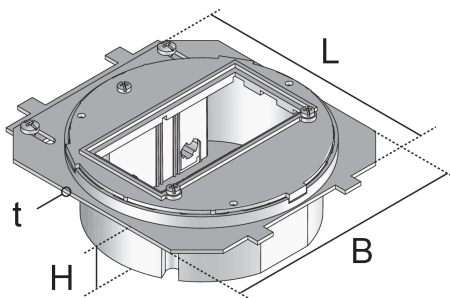

UGR1-4 components are round mounting boxes. They are pre-assembled from a UGET1-2 UG-R board, UG-R mounting box with strain relief device and a UARM-4-1 118 cover plate. The products are snapped into single outlets for mounting in false floor sockets regardless of their height. They are used to install up to two installation devices. The boards of the mounting boxes are made of sheet steel and the mounting boxes and cover plates are made of high-quality plastic. The UGR1-4 has a minimum installation height of 70 mm. It is 125 mm wide, 128 mm long and is made from material 2.0 mm thick.

Products	H	H _{min}	B	L	t	weight
UGR1-4	43 mm	70 mm	125 mm	128 mm	2,00 mm	0,240 kg
