

UNSKH V

Heat-resistant formwork unit, height-adjustable, angular

UNSKH V products are square formwork bodies. These are inserted into the floor sockets or cable duct assembly covers of screed-covered underfloor ducts and used as lost formwork for round installation units. They are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346, can be sanded, are heat-resistant and have internal level adjusters with levelling bases and covers. The formwork bodies are suitable for use in asphalt and terrazzo and are mounted on the raw concrete slab. They have VDE/TÜV approval and are available in various dimensions.

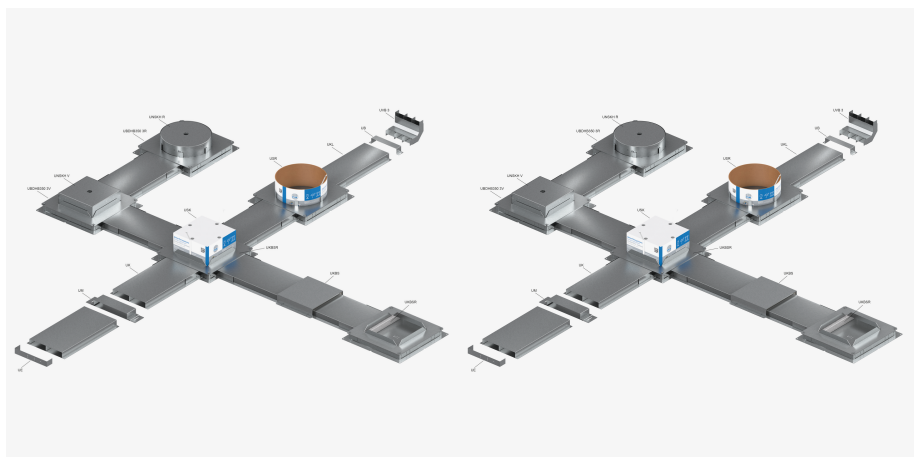

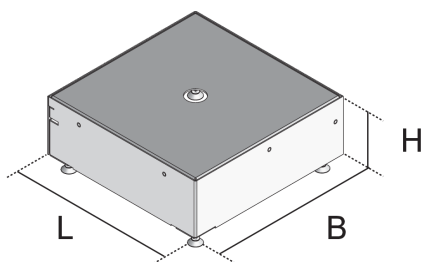

Products	H_{\min}	N	weight
UNSKH 260V-100S	100 mm	55 mm	2,717 kg
UNSKH 260V-155S	155 mm	70 mm	2,639 kg

H_{\min} : minimum installation height

N: levelling range
