

USH 40

Vacuum lifting pads

USH 40 components are round vacuum lifting pads. These accessories from the underfloor system range are used for the user-friendly opening of heavy dummy cartridges. They have a load-carrying capacity of up to 40 kg. The vacuum lifting pads are made of high-quality rubber and are 120 mm in diameter.

Products	D		weight
USH 40	120 mm	40 kg	0,280 kg
