

WLVH 200

Wide-span cable ladder connector, horizontal, height = 200 mm

WLVH 200 wide span connectors can be used to connect 200 mm wide-span cable trays together and to create horizontal changes in direction. If the direction changes by $> 30^\circ$, the cable trays must first be cut to size according to the installation instructions. In either case, the side connectors are bent to the required angle as desired. They are 203 mm high corresponding to the height of the cable tray rail. We provide components in various materials and surface finishes to ensure that various corrosion protection requirements for different areas of application are met.

steel, continuously hot galvanized/Sendzimir process

Products	t	W
WLVH 200S	2,50 mm	3,837 kg
incl.:		
8 x FRSV 10X20, 8 x SEMS 10		

steel, batch/hot-dip galvanized

Products	t	W
WLVH 200F	2,50 mm	3,900 kg
incl.:		
8 x FRSV 10X20F, 8 x SEM 10F, 8 x US 10X21F		

t: material thickness

W: Weight per storage unit
