

WPV 120

Wide-span cable tray connector, height = 115 mm

WPV 120 wide-span connectors can be used to connect wide-span cable trays or ladders together. They are 115 mm high corresponding to the height of the cable tray rail. One side of the connector is mounted as a floating bearing to allow for thermal expansion. The specified torques must be taken into observed. The other side of the connector is formed as a fixed bearing. A minimum distance of 4 mm must be maintained between the cable trays. We provide components in various materials and surface finishes to ensure that various corrosion protection requirements for different areas of application are met.

steel, batch/hot-dip galvanized
