

Declaration on paint compatibility or paint wetting impairment substances (PWIS)

We hereby certify that our products from the finishing/cable routing sector, which are made of the materials steel/stainless steel and aluminum, are free of paint wetting impairment substances (PWIS-free/silicone-free).

Edge protective strips (KSB), counter vats (GW), double vats (DW), high-frequency vats (HW) and cable protection rings (KSR) are also made of PWIS-free material.
